

Helios™ Fact Sheet

Helios™ Wireless Chargers for Office, Residential, and Public Areas

Designed to be an embedded solution for transforming ordinary surfaces into wireless charging zones. Wirelessly charges any Qi-certified devices that require 5 watts or less. Intelligent charging delivers the required amount of power by communicating to the device and stops charging when the device has completed its charging cycle.

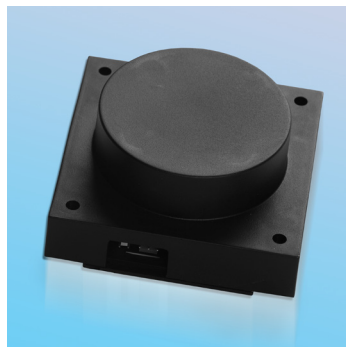

Low-Profile Helios Wireless Charger:

Dimensions: .69" H x 3.38" W x 4.50" L

Puck Helios Wireless Charger:

Dimensions: 3" Diameter x 1.1" H

Standard Helios Wireless Charger:
